TOM LEACH ROOFING

• We Specialize in Old Portland and Historical Homes •

When do I know my roof needs repair?

A great way to see if your roof needs repair is to take a look at it and if your shingles are now split, buckling or missing, you should get your roof looked at. Also check for open cracks or splits in caulking and siding.

Give us a call at 503.238.0303

Since 1982, Tom Leach Roofing has been known for its superior rank in the industry.

READ WHAT OUR CUSTOMERS HAVE TO SAY ABOUT US

The roof looks good and your guys were *real* workers. They were well organized and except for lunchtime, I don't think I can recall any one of the group members ever standing still for more than a few seconds. Your guys were incredibly hard workers. And, true to your reputation, everything was cleaned up very well every day. There is not a trace of anything left

over in the yard or anywhere. -P.L.

My daughter and I thank you for your time in coming to the job site and giving us an honest answer to the question of whether or not a new roof is needed. Your candor and integrity are greatly appreciated. -G.B.

Thank you very much for your work on our roof. We

were very happy that you were able to fit us into your schedule as quickly as you did. Your workers were efficient, friendly and professional. We were so thrilled that they went the extra mile to get the job done in a day so that the roof did not sit incomplete overnight under the risk of rain. Their cleanup was excellent as well. -C.N.
